MEMORANDUM

TO:

[] and []

SUBJECT: Expansion of Propaganda Supply Program

1. I submit we should give careful consideration to mounting a number of maritime operations during 1952 to land a quantity of food, clothing and other useful items on certain stretches of the Albanian coastline. These operations would accomplish the following:

a. Supplement the airborne phase of the Propaganda Supply Program, thereby providing additional evidence to the Albanian People of continued NCFA support.

b. Provide the BGFIEND clandestine radio and other suitable propaganda media such as the letter writing program with valuable material ~~for~~ EXPLOITATION.

c. Serve as harrassment operations consistent with the type agreed upon at the Rome October FIEND/VALUABLE meeting.

d. Provide experience in landing operations on the Albanian coast and develop intelligence on the coastline which would prove valuable in later infiltration, sabotage and related operations.

2. It is assumed the development of this phase of the Propaganda Supply Program would only be pursued if it was determined to the satisfaction of all concerned that the operations would not work to the detriment of the High Level Penetration Program and OSO Albanian
